C2G

35ft (10.7m) Cat6a Snagless Unshielded (UTP) Ethernet Network Patch Cable - Aqua

Part No. CG-00773

This Snagless Unshielded Cat6a patch cable is ideal for use with 10GBase-T ports and equipment, such as network adapters, hubs, switches, routers, DSL/cable modems and patch panels, and enables 10 Gigabit data transmission over a 4 pair copper cable allowing connections up to 100 meters. Current Cat6 cabling systems may only support 10 Gigabit Ethernet over limited distances. Each patch cable is fully tested to meet ANSI/TIA 568 C.2 Cat6a channel requirements.
Constructed from high quality cable and plugs, this design offers improved alien cross talk performance. The Snagless hood is ideal for high density switch applications. Available in a variety of colors to easily color-code a network installation. Individual length label on each cable for ease of use.

Features & Benefits

- Designed for network adapters, hubs, switches, routers, HDBaseT applications and more
- Supports 10 Gigabit networks up to 328ft for fast data transmission and maximum performance
- Meets the ANSI/TIA-568-C.2 Cat6a requirements for supporting a wide variety of applications
- Constructed with unshielded twisted pair (UTP) wires, designed to counter EMI, RFI, and crosstalk
- Snagless connector design for high density environments and protecting the RJ-45 connector's lock
- Available in a variety of colors to color-code a network

Specifications

General Info

Product Line	C2G	Color	Aqua
UPC Number	757120007739	Country Of Origin	China
Features	PoE (Power Over Ethernet)	Application Sector	Commercial, Industrial, Residential
Warranty Type	Lifetime	Type	Cable

Dimensions

Product Length US	35.0 FT	Cable Length	35 ft

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	26 AWG
Cable Type	Booted, Ethernet Patch Cable, Snagless, Unshielded (UTP)	Jacket Rating	Standard / Non-Rated
Cable Diameter	6 mm	Adapter Rear	RJ-45 Male

Adapter Front	RJ-45 Male
