C2G

Discontinued - TV to PC Converter

Part No. CG-40971

Our TV to PC converter accepts s-video or composite video signals and converts them to VGA HD15 for high resolution image display on a PC monitor. By using this converter, you can display videos, cable or satellite TV or your video game console on a PC monitor. The converter uses the latest de-interlace chipset on the market which enables it to provide a truly high quality picture. No software is required and connecting the device is simple. Within minutes you can be watching your DVD collection, satellite receiver or be playing video games on any PC. The converter has a small footprint which makes it easy to fit in tight spaces and great for traveling. A built-in switch offers convenient switching between devices connected to the converter and your PC. The converter outputs 640 x 480 pixels (VGA), 800 x 600 pixels (SVGA), 1024 x 768 pixels (XGA), and 1280 x 1024 (SXGA) resolutions.

Please Note: Not sure what resolution you need? See our
