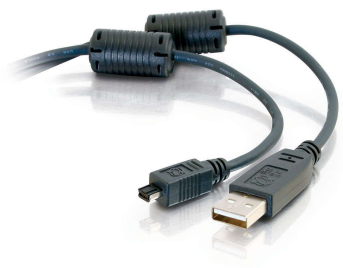
6.6ft (2m) Ultima™ USB 2.0 A to Mini-B Cable for select Minolta, Samsung® and Toshiba™ Cameras (HIROSE KEY)

Part No. CG-12342



The Ultima USB cable optimizes style, quality, and value in a cable specially designed for high performance. USB devices with the mini-b port, and this cable will deliver high speed data transfer up to 480 Mbps. heavy duty 22 AWG power wires provide the proper current to your USB device. Dual foil and braid shielding reduces EMI/RFI interference while twisted pair construction helps reduce crosstalk thus ensuring high speed, error-free data transfer.

The sleek design of the molded connectors makes them easy to grip. The metal connector shield helps to meet FCC requirements on EMI/RFI interference, while a solder-to-connector shell and cable braid create an end-to-end shielding solution for a noise-free connection.

24k gold-plated connectors provide maximum corrosion resistance for error-free data transfer. The charcoal gray cable jacket not only matches your case but disappears behind your desk leaving a clean organized look. Finally, an ultra-flexible jacket makes installation easy.
