C2G

1-Port USB Car Charger, 2.4A Output

Part No. CG-21068

The 1-Port USB Car Charger is an ideal solution for charging mobile devices while on long road trips or short commutes. This high-performance car charger features a compact design for easy portability and provides a power output of 5V and 2.4A for device charging.

The charger includes one USB-A port to charge a single device. The charger offers quick charging and has the ability to detect the accurate current output for protection against overloads, which can damage valuable mobile devices.

5 volts and 2.4 amps of power are available for device charging from this adapter when it is plugged into a DC outlet. The power output makes this adapter the perfect solution for charging smartphones.

Features & Benefits

- One USB-A female port
- 5V, 2.4A maximum total output
- Accurate current limit and overload protection
- Quick charging
- Fireproof shell material
- Blue LED indicator when powered
