C2G

SOHOTest-E™ Residential Cable Tester

Part No. CG-39004

Save yourself the time and cost of an extra service call! This easy-to-use tester helps novice home network users determine cable faults before calling for service. The SOHOTest-E (Small Office Home Office) tester is an economic solution to test the most commonly used cables in residential wiring, those with f-type and RJ45 connectors.

Use this handy tester to determine wiring faults in network, phone and cable TV cables before or after installation in cable installations up to 200 meters (656 feet). Has a compact, lightweight design with a small form factor of 2in x 3in x 1in. Uses a pass/fail coaxial test. Includes a remote unit for single person testing.

Features & Benefits

Easy-to-read LED display

Compact and lightweight design

Easy-to-read LED display makes it easy to quickly identify any cable continuity issues

Compact and lightweight design makes it easy to carry and use in a variety of settings

Battery-powered for portability

Includes carrying pouch

Battery-powered for portability, allowing technicians to easily test cables in the field

Includes carrying pouch for added convenience and protection during transport.
