C2G

Discontinued - Intel® E10GSFPSR Compatible 10GBase-SR SFP+ Transceiver Module with Digital Optical Monitoring (Multimode, 850nm, 300m, LC, D

Part No. CG-E10GSFPSR-LEG

This Intel E10GSFPSR compatible SFP+ transceiver provides 10GBase-SR throughput up to 300m over multi-mode fiber (MMF) at a wavelength of 850nm using a connector. Digital optical monitoring (DOM) support is also present to allow access to real-time operating parameters. Our transceiver is guaranteed to be 100% compatible with the equivalent Intel transceiver. This easy to install, hot swappable transceiver has been programmed, uniquely serialized and data-traffic and application tested to ensure that it will initialize and perform identically. It is built to meet or exceed the specifications of Intel, as well as to comply with multi-sou agreement (MSA) standards to ensure seamless network integration.

[B]Please Note:[/B] Installing Legrand transceivers does not void your network equipment warranty. Network equipment manufacturers all have guidelines statir that warranty support on their products will not be affected by installing a Legrand or any third party transceiver.

Features & Benefits

- Functionally identical to Intel E10GSFPSR
- Transceiver type SR allows for connections up to 300m
- 850nm wavelength signaling
- High speed 10-Gigabit connectivity
- LC ports designed for use with Multimode fiber
- Supports Digital Optical Monitoring (DOM)

Specifications

General Info

Product Line	C2G	Color	Silver
UPC Number	757120601821	Country Of Origin	United States
Application Sector	Commercial, Industrial	Warranty Type	Lifetime
Type	Transceiver		

Technical Information

Fiber Optic Cable Type	Multimode
