C2G

Discontinued - 360° Rotating HDMI® Male to DVI-D™ Female Adapter

Part No. CG-40932

When mounting flat panels or projectors, it's hard to know what angle will be required for the digital video connector. Fortunately, our HDMI to DVI adapter can be twisted or turned to virtually any position. The rotator adapter features a center ball joint design that enables a 360° rotation and bending so that the digital video cable can easily be run at many angles. The adapter's design ensures signal integrity in any position and its flexibility makes it ideal for digital video connections in limited spaces. With its 360° rotating connector, the days of not having the right connector orientation on your cables are over!

Features & Benefits

- Connect a DVI-D cable to a HDMI port
- 360° rotation for installation in tight spaces
- Compact design
