

C2G 6.6ft (2m) DVI Male to HD15 VGA Male Video Cable Part No. CG-26954

Digital Visual Interface (DVI) is the standard interface for highperformance connection between PCs and flat panel displays, CRT displays, projectors, and HDTV. This video cable is fully compliant with the DVI standard defined by DDWG (Digital Display Working Group). Three analog 30 AWG coaxial lines enable high speed analog transmission.

Tri-shielded undermold and braid shield protects against unwanted EMI/RFI interference. Each coax line is individually wrapped in foampolyolefin insulation and overwrapped with a braided tinned copper shield. 28 AWG copper conductors are individually insulated in harddensity polypropylene to minimize crosstalk, and ensure high speed, error-free transmission. Gold-plated contacts provide full conductivity with no data loss. PC and Mac compatible cable supports hot-plugging of DVI display devices. PC-99 color-coded: blue, white.

Please Note: The DVI connector on this cable can only be inserted into a DVI-I interface.

Features & Benefits

Perfect for connecting VGA devices to analog DVI Displays

Use with DVI-I port on display

Supports resolutions up to 1600 x 1200

Available in lengths up to 5m

Specifications

General Info

Product Line	C2G	Color	Black	
UPC Number	757120269540	Country Of Origin	China	
Application Sector	Commercial, Residential	Warranty Type	Lifetime	
Туре	Cable			
Dimensions				
Product Length US	6.6 FT	Cable Length	6.6 ft	
Technical Information				
Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	30 AWG	

Video Resolution	UXGA (1600x1200)	Cable Type	Video
Jacket Rating	Standard / Non-Rated	Cable Diameter	7 mm
Adapter Rear	VGA Male	Adapter Front	DVI-A Male
