C2G

Discontinued - Cisco® ONS-SI-GE-SX Compatible 1000Base-SX SFP (mini-GBIC) Transceiver Module with Digital Optical Monitoring (Multimode, 850nm, 550m, LC, D

Part No. CG-ONS-SI-GE-SX-LEG

This Cisco ONS-SI-GE-SX compatible SFP transceiver provides 1000Base-SX throughput up to 550m over multi-mode fiber (MMF) at a wavelength of 850nm using LC connector. It is also capable of withstanding rugged environments and can operate at temperatures between -40Â°C to +85Â°C. Digital optical monitoring (DOI support is also present to allow access to real-time operating parameters. Our transceiver is guaranteed to be 100% compatible with the equivalent Cisco transce This easy to install, hot swappable transceiver has been programmed, uniquely serialized and data-traffic and application tested to ensure that it will initialize an perform identically. It is built to meet or exceed the specifications of Cisco, as well as to comply with multi-source agreement (MSA) standards to ensure seamles network integration.

[B]Please Note:[/B] Installing Legrand transceivers does not void your network equipment warranty. Network equipment manufacturers all have guidelines statir that warranty support on their products will not be affected by installing a Legrand or any third party transceiver.

Features & Benefits

- Functionally identical to Cisco ONS-SI-GE-SX
- Transceiver type SX allows for connections up to 550m
- 850nm wavelength signaling
- Rugged design withstands more extreme temperatures than a standard transceiver
- High speed 1-Gigabit connectivity
- LC ports designed for use with Multimode fiber
- Supports Digital Optical Monitoring (DOM)

Specifications

General Info

Product Line	C2G	Color	Silver
UPC Number	757120668558	Country Of Origin	United States
Application Sector	Commercial, Industrial	Warranty Type	Lifetime
Type	Transceiver		

Technical Information

Fiber Optic Cable Type	Multimode	Adapter Front	SFP Male
