C2G

Discontinued - 0.5ft (0.15m) RapidRun® Dual 3.5mm Audio Breakout Adapter Cable - Display

Part No. CG-60101

The 6in RapidRun® Dual 3.5mm Audio Breakout Adapter Cable is the perfect solution for applications where an audio signal must be separated from the video signal and sent to two different locations. This adapter provides two separate 3.5mm audio ports at the display end of a RapidRun Multi-Format Runner. Connect the Multi-Format runner to this adapter, connect the adapter to a wall plate or flying lead, and then connect the two 3.5mm ports from the adapter to a device with a separate Stereo Audio cable.

Note: The black 3.5mm female connector provides audio from the 3.5mm port of the wall plate or flying lead and the red 3.5mm female connector provides audio from the RCA Stereo Audio port of the wall plate or flying lead.
