C2G
6ft (1.8m) USB 2.0 One B Male to Two A Male Y-Cable
Part No. CG-28108

When a standard USB cable cannot transfer enough power to operate an external device, such as a portable 2.5in hard drive, you need a USB 2.0 y-cable. Simply plug this cable's USB B end into the device, and then plug the two USB A ends into open USB ports on one PC or Mac. This cable then pulls power from both USB ports, and thus increases the output to the external drive.

The red molded hood on the auxiliary USB A connector enables the user to quickly distinguish between main and auxiliary power. Foil and braid shielding reduces EMI/RFI interference, and twisted pair construction reduces crosstalk for high speed, error-free data transfer. This cable is compatible with USB 1.0, 1.1, and 2.0 specifications.

Please Note: This cable is not designed to split USB signals to multiple computers. The two USB A connectors are meant to plug into USB ports on the same computer.

Features & Benefits

Pulls power from USB ports and increases the output to an external drive

Specifications

General Info

Product Line	C2G	UPC Number	757120281085
Country Of Origin	Vietnam	Application Sector	Commercial, Residential
Warranty Type	Lifetime	Type	Cable

Dimensions

Product Length US	6.0 FT	Cable Length	6 ft

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Cable Type	USB
Amperage	100 mA	Data Transfer Rate	480 Mbps
Adapter Rear	USB-A Male, USB-A Male	Adapter Front	USB-B Male
