

Quickly becoming the standard in satellite and cable television installation, our compression connectors provide reliable connections with a high resistance to moisture. High frequency, these are compatible with digital cable and satellite. The bright nickel finish withstands harsh environments, and reduces the effects of oxidation.

An o-ring in the nut and a tapered plastic ferrule provide a barrier to moisture migration through the threads and under the cable jacket that would otherwise damage the cable. Use item #38011, our 3-in-1 compression tool, for easy installation.

Features & Benefits

- Ensures reliable and secure connections for satellite and cable television
- Resistant to moisture, preventing damage to the cable
- Compatible with digital cable and satellite systems, providing versatility
- Durable bright nickel finish withstands harsh environments, ensuring long-lasting performance
- Reduces the effects of oxidation, maintaining signal quality
- O-ring and tapered plastic ferrule prevent moisture migration, prolonging the lifespan of the cable
- Easy installation with the use of the 3-in-1 compression tool, saving time and effort.

Specifications

General Info

Product Line	C2G	UPC Number	757120411284
Country Of Origin	Taiwan, Province Of China	Application Sector	Commercial, Residential
Warranty Type	Lifetime	Type	Connector

Dimensions

Product Length US	1.2 in
