

Don't sacrifice convenience when determining where to place your hardware. A DB9 extension cable can give you the flexibility to extend a computer peripheral wherever you need it. Each extension cable comes fully shielded to prevent unwanted EMI/RFI interference, and the fully molded cable design delivers excellent strain relief. Connector thumbscrews provide a quick and easy connection every time. All lines are wired straight through.

## Features & Benefits

Extend an existing DB9 cable up to 100ft

Put peripherals in the most convenient place

Available in beige and black

## Specifications
