

Send a video signal from a tablet, laptop computer, or another source device with a Mini DisplayPort or Thunderbolt 2 output port to a projector, monitor, or HDTV with an HDMI, DVI or VGA input port. This compact all-in-one converter is an ideal solution for use in schools, conference rooms, or other work spaces that may utilize assorted displays with varying inputs in multiple rooms throughout a building.

On The Go Enhanced

Be prepared for any meeting, presentation, or event with the full confidence that you have the right connections in an ultra-compact design. The Mini DisplayPort to HDMI, VGA, or DVI adapter allows you to connect a Mini DisplayPort equipped laptop or tablet to a projector, monitor, or HDTV with an HDMI, VGA, or DVI input port. The compact design of this adapter converter makes it a perfect fit for BYOD (Bring Your Own Device) applications in education or corporate environments. This adapter converter is a perfect accessory for Microsoft® Surface® products and other leading laptops.

Straightforward Install

This simple plug and play adapter converter does not require drivers for install and the device is powered through Mini DisplayPort bus power, so no additional power adapters are needed.

Port Protection

The dongle-style adapter converter reduces strain on the video port. The cable between the Mini DisplayPort connection and the adapter converter provides strain relief that protects the port from strain damage as cords are moved.

Note: This adapter converter will output signal to one video port at a time. This adapter converter is not designed to output multiple video signals simultaneously.
