

C2G 50ft (15.2m) RapidRun® Multi-Format Runner Cable - Plenum CMP-Rated Part No. CG-60013

RapidRun® is designed to be the standard for in-wall audio/video installations. Using pre-terminated Break-away flying leads and wall plates with an in-wall runner ensures flexible, efficient, high quality connections for all types of equipment, with no field terminations.

Constructed from aluminum for durability, this wall plate has a locking connector that enables the integrator to save valuable space inside the surface mount or electrical box that typically is already packed with cables. The included keystone bezels will work with most brands of keystone inserts including Leviton®, L-com®, NetKey®, ADC Krone, HellermannTyton, and Allen Tel.

For more information on the RapidRun Multi-Format products, click <u>here</u>.

Please note: Each complete RapidRun Multi-Format solution requires a break-away flying lead or wall plate to terminat each end of the runner cable. Each runner requires (2) break-away flying leads, (2) wall plates, OR (1) break-away flying lead and (1) wall plate.

Features & Benefits

Plenum, CMP-rated jacket

Supports VGA video and other audio/video signals

Designed for use with RapidRun Multi-Format flying leads and wall plates

Specifications
