

With a SC to SC termination, this high quality fiber optic patch cable is specifically designed for ethernet, multimedia, or communication applications. The SC connector features a push-pull locking system. The patented injection molding process provides each connection greater durability in resisting pulls, strains and impacts from cabling installs. Each cable is 100% optically inspected and tested for insertion loss before you receive it. A pull-proof jacket design surrounds the popular 62.5/125 multimode fiber, providing immunity to electrical interference.

## Features & Benefits

Secure connection points with push-pull locking system

Immune to electrical interference

Available in lengths up to 30m

## Specifications

### General Info
