

C2G Smart 3-Port USB Car Charger, 4.8A Output

Part No. CG-21071

The Smart 3-Port USB Car Charger is an ideal solution for charging mobile devices while on long road trips or short commutes. This high-performance car charger features a compact design for easy portability and provides a power output of 5V and 4.8A for device charging.

The charger includes three USB-A ports to charge three devices at once. The Smart-IC technology identifies the mobile device's unique charging requirements to safely charge at the maximum speed. Having the ability to detect the accurate current output allows for protection against overloads, which can damage valuable mobile devices.

5 volts and 4.8 amps of power are available for device charging from this adapter when it is plugged into a DC outlet. The 4.8 amps are broken down by 2.4 amps for port three and a shared 2.4 amps between ports one and two. The power output makes this adapter the perfect solution for charging smartphones and tablets.

Features & Benefits

Three USB-A female ports

Smart-IC technology auto detects output requirements

Internal temperature protection

Blue LED indicator when powered

5V, 4.8A maximum total output

Accurate limited current output and overload protection

Fireproof shell material

Specifications

General Info				
Product Line	C2G	Color	Black	
UPC Number	757120210719	Country Of Origin	China	
Features	USB-A Charging	Application Sector	Commercial, Residential	
Warranty Type	Lifetime	Туре	Adapter	
Listing Agencies / 3rd Party Agencies				
CE Certified	Yes	FCC Compliant	Yes	

Amperage	4.8 A	Adapter Rear	USB-A Female, USB-A Female, USB- A Female
Adapter Front	DC Power Plug
