C2G
Lava™ SSerial-PCI 1-Port PCI 16550 DB9 Serial Card (TAA Compliant)
Part No. CG-26804

The Lava SSerial-PCI improves your data throughput rates, and saves valuable ISA slot real estate. The most common method of connecting an external peripheral (modem, digital camera, etc.) to a PC is through a serial port. Many PC users want a product that improves connectivity, and solves their real estate problems.

The SSerial-PCI does just that! This PCI bus single 9-pin serial port with 16550 UART supports data throughput rates up to 115.2k bps, saves an ISA slot, and fully supports PCI IRQ sharing. With easy plug-and-play installation, it automatically selects the next available IRQ and COM address; just plug it in and go!

Features & Benefits

Improves data throughput rates, and saves valuable ISA slot real estate

Specifications

General Info

Product Line	C2G	Color	Silver
UPC Number	757120268048	Country Of Origin	Canada
Application Sector	Commercial, Industrial, Residential	Type	Accessory

Technical Information

Adapter Front	DB9 Male
