

C2G 6ft (1.8m) 3.5mm M/F Stereo Audio Extension Cable (PC-99 Color-Coded) Part No. CG-27408

Specifically designed for quality computer audio applications. This cable extends the connection from the PC sound card, portable CD player or any mini-stereo audio device with 3.5mm jacks to a multimedia speaker. The cable features two 29 AWG stranded conductors and a drain wire, which are tinned to resist oxidation. The conductors and drain wire are wrapped with an aluminum foil shield to resist noise and prevent unwanted EMI/RFI interference. Fully molded nickel-plated connectors provide strain relief, and are colorcoded PC-99 to match a computer speaker jack.

Features & Benefits

Shielded to prevent unwanted EMI/RFI interference	Fully mold
---	------------

Color-coded to match a computer speaker jack

Fully molded nickel-plated connectors
