

High impact grade polystyrene enclosure and speaker support bridge system for the installation of 5 inch ceiling mount speakers. The enclosure locks to the bridge with a twist. Multiple tie points are provided for accessories and safety security wires if required.

Please note that the speakers are sold separately.

Features & Benefits

Twist lock mechanism: The enclosure securely locks to the bridge using a twist lock mechanism, providing a stable and secure mounting solution.

Easy installation: The speaker support bridge system simplifies the installation process of 5 inch ceiling mount speakers, saving time and effort.

Durability: The high impact grade polystyrene enclosure ensures that the product can withstand rough handling and accidental impacts, providing a reliable and long-lasting solution.

Versatility: The multiple tie points provide flexibility in attaching accessories and safety security wires, allowing for customization and enhanced safety measures if required.
