

This USB Active Extension Cable is an ideal solution for USB applications which require more cable length than the 5 meter (16.5ft) length limitation of USB. This extension cable actively buffers the incoming and outgoing signals to ensure compliance with the USB 2.0 specification for electrical and timing minimums. The plenum rated jacket meets the requirements for an installation in a commercial space, and both low and high speed USB devices will function equally well with this extension.

Features & Benefits

Plenum, CMP-rated jacket

Supports USB 2.0 bandwidth

Draws power required for operation through the USB port

Specifications

General Info

Product Line	C2G	UPC Number	757120399353
Country Of Origin	China	Application Sector	Commercial, Residential
Warranty Type	5-Year	Type	Active Device, Cable

Dimensions

Product Length US	50.0 FT	Cable Length	50 ft
