

Audio amplifiers are required in commercial and educational environments to boost line level audio from laptops, DVD players or other electronics to drive speakers that evenly disperse sound throughout the room. This plenum-rated 45-Watt stereo amplifier provides excellent performance and produces crisp, clear audio. Its unique heat-sink design provides effective heat dissipation which allows it to be used in areas of high temperature and low air flow such as plenum boxes. Integrated Hummbuster technology allows the amplifier to filter hums and ground loop issues that can compromise sound quality and have traditionally plagued audio systems. Power and performance combine in this device to ensure quality performance while staying on budget.

### Features and Benefits

- 45 Watt amplification
- Plenum rated
- Integrated Hummbuster to filter out hum caused by a ground loop
- One 3.5mm and One RCA Stereo Audio input

### Additional Technical Specifications

- 45 Watts RMS output at 4 Ohm
- Frequency Response: 20 Hz ~ 20 kHz
- Power Supply: 18V @ 3.5 A
- Operating Temperature: -40°F to 190°F
- Input 100 ~ 240 VAC

## Features & Benefits

45 watt amplification

Plenum rated

Integrated Hummbuster to filter out hum caused by a ground loop

One 3.5mm and One RCA Stereo Audio input

## Specifications

### General Info

Product Line	C2G	Color	Black
UPC Number	757120405733	Country Of Origin	United States
Application Sector	Commercial, Residential	Warranty Type	Lifetime

---

Type	Amplifier
------	-----------

---

### Buy American Act Compliance

---

TAA Compliant	Yes
---------------	-----

---

### Technical Information

---

Amperage	3.5 A
----------	-------
