

C2G

Replacement Multiport Controller Interface Adapter (MCIA)

Part No. CG-98156

Adapter

The Replacement Multiport Controller Interface Adapter (MCIA) is the perfect solution for users who need to replace lost or damaged MCIA for the TruLink A/V Controller. The MCIA provides quick, secure connections for the TruLink A/V Controller. Specifically engineered for use with this controller, the MCIA provides connections for A/C power adapter, RJ45, two DB9, 12V DC Trigger and two IR cables. The MCIA also provides a switch for each DB9 port for toggling between modem and null modem connections.

Connectors:

- RJ45 Connection to the controller
- 3.5mm for IR
- Two DB9 for Serial
- Screw terminal two position Power
- Screw terminal three position 12V DC Triggering

Features & Benefits

Replacement MCIA ensures that the AV Controller is fully functional

Provides seamless control of multiple devices, making it easy to switch between devices and control them from a single controller $\,$

Compact design allows for easy installation and saves space
