

Hospital Grade Power Cords (NEMA 5-15P to IEC 320 C-13R)

Replacement power cords for PC, Monitor, Printer, Lab Equipment

Power cords used in hospitals and other medical settings must conform to strict standards for grounding reliability, assembly integrity, strength and durability, as well as regulatory standards such as NEMA and IEC specifications. These standards are in place to ensure that power cords are safe and reliable for use in demanding hospital environments. The Hospital Grade power cord selection from Cables To Go offers one of the broadest selections available on the market. This offering is the ideal solution for replacing overused or misplaced power cables, or to optimize office or lab layout with a cable that is the perfect length. This universal C13 series is designed to work with most PCs, monitors, scanners, printers and many other devices that are powered via the industry standard 3-pin C14 connector inlet. The low profile right angle connector design allows for convenient equipment placement in tight spots.

The female C13R connector plugs directly into the device while the male Hospital Grade 5-15P connector plugs into a Hospital Grade supply outlet. Cables are available with black or clear connectors to match any environment or hospital standard. Performance is guaranteed through a lifetime warranty, so performance is never an issue. Easily recognizable through the Green Dot mark, these Hospital Grade power cables ensure compliance and maximum performance.

Features:

- Low profile Right Angle C13R device connection
- Optional black or clear connector color selection
- Available in 16 & 18AWG gauge selections
- Hospital Grade UL & CSA certification
- Complete selection of length and gauge stock availability
- Input: NEMA 5-15P connector
Output: IEC320 C-13R connector
- Lifetime warranty

Applications:

- Perfect for hospital, doctor's office, dentist office, or any other healthcare facility requiring a low profile right angled Hospital Grade power connections for:
 - Office PC's, monitors, scanners, printers
 - Lab equipment, nurses carts
 - Conference room projectors, TV's
 - Patient room TV's, equipment
 - Hallway digital signage monitors, projectors, TV's
