C2G
Discontinued - 20ft (6.1m) IEEE-1284 DB25 Male to MicroCentronics 36 Male Parallel Printer Cable
Part No. CG-06097

To enjoy the increased data rate and two-way communication of your IEEE-1284-compliant printer or scanner, you need a cable with high quality connectors and a specialized wire type. Our cable exploits this technology to enable high speed, bi-directional communication between a PC and a peripheral. 17-pair wire twisted with at least 36 turns per meter, molded connectors, foil shielding and 85% coverage braid soldered 360° to the connector shell all provide maximum resistance against harmful EMI/RFI, and help you to achieve the maximum performance from your peripheral.

Specifications

General Info

Product Line	C2G	Color	Beige
Warranty Type	Lifetime	Type	Cable

Dimensions

Cable Length	20 ft

Technical Information

Cable Type	Parallel	Adapter Rear	Micro Centronics 36 Male
Adapter Front	DB25 Male
