

Get a cost-efficient solution to your rackmount storage needs. Designed with APW's renown quality and stability, this relay rack is ideal for mounting electronic and test equipment, patch panels, datacom and telecom equipment, communications circuit accessories, and other cabling and rackmount peripherals. Its double-bolted design at front and rear, as well as top and bottom, ensures maximum rigidity.

Includes a lance mechanism for attaching cable ties inside the channel, and cable tie slots on the rear of the unit for additional cable management. This frame has a 19-inch EIA rackmount width, and a black baked-on over aluminium finish. Includes heavy duty extruded aluminum uprights, channels, bases, and top angles. 10-32 mounting hole options.
