

C2G  
**Discontinued - 5ft (1.5m) Cat5 25-pair Telco Breakout Cable 180° Telco50 M/12-RJ45**  
Part No. CG-14992

Avoid the hassle of punching down numerous pairs of UTP wire by simply connecting via the Telco connector. This breakout cable comes standard with twelve RJ45 terminated legs, and a 180° hood on the Telco connector. Components meet or exceed EIA/TIA and ISO/TEC standards while data transfer rates can reach up to 100 MHz. Near-End Crosstalk (NEXT) levels are drastically reduced by maintaining the wire twists up to the point of termination on the Telco side. Finally, we use a short-body RJ45 plug which also helps to preserve signal integrity.

## Specifications

### General Info

Product Line	C2G	Color	Gray
Type	Cable		

### Dimensions

Cable Length	5 ft
