Discontinued - 6ft (1.8m) Wiremold® Uniduct 2900 Multipack (20-Pack) - White
Part No. CG-16079

We no longer directly offer these products. You can find it available to purchase with an account at [legrandav.com](https://www.legrandav.com) as part numbers 2900, 2900-FW, 2900L8-FW, 2900L8-WH, 2900L8, and 2900-WH.

Wiremold raceway is the ideal solution for routing and protecting fiber optic, UTP and other low voltage cabling- up to 50V. The Uniduct raceway features a co-extruded, flexible, PVC hinge that prevents cracking and splitting even after numerous openings and closings. The one-piece latch allows cabling to be secured within the raceway. The volume of this raceway will accommodate up to ten Cat5e cables, seven Cat6 cables, three Cat6a, six RG6/U coaxial cable or twelve zip cord fiber optic cables for 40% fill. This raceway is easy to install, and the smooth plastic finish, which is paintable using latex paint, ensures a match to the installation environment.

Note: Uniduct series raceway is not UL listed and is only designed for use in protecting low voltage wiring and cabling.

Features & Benefits

One piece design with adhesive backing
Impact-resistant PVC construction

Durable, flexible hinge construction
TAA Compliant
