

This AC adapter charges USB mobile devices using a USB cable and any 110 Volt AC outlet. Simply connect a USB cable to your device and this adapter, then plug the adapter to a wall outlet.

It auto-adjusts to voltage and frequencies worldwide; plus the LED indicates when properly charging. The adapter's lightweight design makes it easy for travel, and far easier to carry than that heavy "power brick" that came with your device!

Please Note: Works with most USB devices.

Please Note: This product is not compatible with Apple iPhone® or iPad® devices, but it does work with iPod® Shuffle. Apple® and iPod® are registered trademarks of Apple Computer, Inc., registered in the U.S. and other countries. This product is not manufactured or endorsed by Apple Computer Inc.
