

**C2G**  
**Discontinued - 3ft (0.9m) LVD/SE MD68 SCSI-3 Cable with Ferrites**  
Part No. CG-28142

For speed, performance and quality from your Sun® workstation, this cable delivers for Ultra SCSI, SCSI-3, Fast/Wide SCSI-II single-ended or differential applications. Fully molded, it is built with double-shielded high impedance twisted pair wire to provide the best possible throughput. Built to meet ANSI specifications. Molded in place, ferrite filters directly contact the shield to reduce EMI/RFI interference.

While this cable is designed to support the Sun workstation environment, it is compatible with all PC and Mac® SCSI environments. 1ft is functionally equivalent to Sun® #530-1883 and #530-2057; 3ft is functionally equivalent to Sun #530-2022 and 530-2224; 6ft is functionally equivalent to Sun #530-1885 and 530-2384; 12ft is functionally equivalent to Sun #530-2352.
