

C2G
Discontinued - TruLink® VGA over Cat5 Extender Aluminum Wall Plate Transmitter to Aluminum Wall Plate Receiver Kit
Part No. CG-29385

The TruLink® VGA over Cat5 kit is a complete solution for extending a VGA video signal over a single Cat5/Cat5e/Cat6 unshielded twisted pair cable up to 300ft at up to a 1920x1200 video resolution. This solution utilizes TruChoice™ power providing the flexibility to power at either the transmitter or receiver end. TruPair™ technology allows the Extended Display Identification Data (EDID) signals, i.e. communication of the display's capabilities, to be communicated, ensuring that the content from the source is sent at the optimal resolution for the display. Built-in power surge protection and high ground loop immunity ensure high performance signal extension.

Features & Benefits

Extend VGA up to 300ft at a 1920x1200 resolution	Utilizes a single category cable for extension
TruPair technology ensures compatibility with any monitor	TruChoice Power allows for power at transmitter or receiver end
Kit includes both the transmitter and receiver units	

Specifications
