

The Cables To Go USB 2.0 high speed Front-Bay Hub has 4 ports that will connect to either USB 2.0 high speed or USB 1.1 peripheral devices. The internal USB hub can be mounted into any 3.5 inch drive bay allowing for hassle free front-side connection of USB devices. With four downstream ports, it is designed to work with mice, keyboards, CD-R/RW's, hard drives, webcams, flash card readers and other USB enabled devices.

The USB 2.0 high speed Front-Bay Hub can transfer data at 480 Megabits per second, making it 40 times faster than previous USB adapters and 20% faster than FireWire. The plug and play design makes for easy, trouble-free installation of your USB devices.

Features & Benefits

Ports: 1 upstream B header port & 4 downstream A ports	Adds 4 USB 2.0 high speed front-side ports to your computer
Easily mounts internally into any available 3.5 inch drive bay	Backwards compatible with USB 1.1 devices
All ports can handle high speed (480Mbps), full-speed (12Mbps), and low speed (1.5Mbps) transactions	Support Plug & Play and Hot Swappable capability
Connects up to 127 USB devices	Supports per-port over-current Detection & Protection
Connection options for existing external USB port or internal motherboard access	Bus power mode only
Root Hub with 4 downstream facing ports which are shared by OHCI & EHCI Host Controller core	LED port status indication

Specifications

General Info

Product Line	C2G	Color	Black
Features	USB-A Charging	Application Sector	Commercial, Residential
Warranty Type	1-Year	Type	Hub

Technical Information

Adapter Rear	USB-A Male	Adapter Front	USB-A Female, USB-A Female, USB-A Female, USB-A Female
