

Toolless keystone jacks are an ideal solution for terminating and connecting network cable. Enjoy the benefit of not having to use a punchdown tool to terminate the wire. Designed for superior performance that meets or exceeds industry standard Category 6/Class E according to TIA/EIA 568B 2.1 and ISO/IEC 11801. This panel-type half shielded RJ45 jack includes 110-type IDC termination with strain relief caps, and comes standard with 50 µinch gold plating on the jack contacts. Use for any unloaded keystone wall plate or patch panel.

Please Note: Our keystone jacks will work with our wall plates and surface boxes, or any standard keystone and angled multimedia wall plate or patch panel.
