

C2G
Discontinued - Cat5E RJ45 UTP Half-Shielded Toolless Keystone Jack - Silver
Part No. CG-35227

Toolless keystone jacks are an ideal solution for terminating and connecting network cable. Enjoy the benefit of not having to use a punchdown tool to terminate the wire. Designed for superior performance that meets or exceeds industry TIA/EIA 568-A-5 requirements. This panel-type half shielded RJ45 jack includes 110-type IDC straight-back termination with strain relief caps, and comes standard with 50 µinch gold plating on the jack contacts.

The shielded top cover is designed for easy cable installation and protection from external radiated noise. Use for any unloaded keystone wall plate or patch panel. Each keystone jack includes a strain relief cap.

Please Note: Our keystone jacks will work with our wall plates and surface boxes, or any standard keystone and angled multimedia wall plate or patch panel.
