

C2G Discontinued - 24-Port Cat6 110-Type Patch Panel Part No. CG-37050

Ready to work with multiple vendor's equipment, this patch panel is made for exceptional performance with black electrostatic powder-coated steel and 50 micron gold-plated contacts. Every panel comes with 110-type termination, while meeting and exceeding TIA/EIA-568-B Cat6 connecting hardware specifications. The clear numbering on both the front and back of each panel provides a quick, easy way to identify cable runs.

Broken or damaged connectors are no longer a problem; you can quickly and easily replace them with C2G, formerly Cables To Go, keystone jacks. The high density 19-inch panel design lets you mount to any standard 19-inch rack or cabinet, accommodates top, bottom or side cable entry, and also saves valuable space in your rack. It also has a write-on designation label with a clear holder on the front and the rear.

Features & Benefits

Meets or exceeds TIA/EIA-568-B specifications

Designed to support Cat6 cabling infrastructure

110 punch down block termination

Labeled for 568A and 568B wiring schemes
