This stainless steel wall plate is designed with a plastic spacer that makes the keystone jack appear flush to the face. A variety of jacks and connectors will fill the wall plate openings to meet your specific requirements for voice, data, audio, video, fiber optic, etc. The inserts are a snap to install and remove, so that you can enjoy a highly adaptable system.

A space is even provided for identifying stations; simply write onto the white insert with a fine tip permanent marker. Compatible with NEMA standard openings and boxes, this wall plate will mount to any electrical or surface mount box, and work with any keystone jacks or keystone inserts.
