

Add loudspeakers to audio/video installations in training rooms, conference rooms or classrooms. The compact size of these speakers ensures installation flexibility, while a 3-way speaker design delivers a clear, crisp audio signal. Mounting is easy because of the universal bracket design, or attach the speakers to a suspended ceiling track with our optional mounting clips (item #40540, not included). At 40 watts per channel, these speakers provide plenty of capacity for everyday audio needs.

Features & Benefits

40 Watt maximum

3-way speaker design

Mounting bracket included
