

C2G

Discontinued - 32.8ft (10m) TruLink® High Speed HDMI® Active Optical Cable - AOC

Part No. CG-41401

The TruLink High Speed HDMI AOC is the perfect solution for extending HDMI signals in classrooms, conference rooms, healthcare facilities, houses of worship and other commercial environments. Utilizing AOC technology that performs similar to traditional copper cabling, the optical fiber construction between the connectors provides optimum performance and easy installation. The AOC technology delivers several advantages which make it a smart choice in select installations. The cable diameter is smaller than copper and more flexible which makes it easier to install in tight spaces. Constructed from fiber strands, this cable reduces the risk of EMI/RFI so performance is stable when used in typically high interference environments such as data centers, surgical theaters or manufacturing facilities where high resolution and consistent display are critical. The TruLink AOC features an added USB connector that allows the AOC to draw power from displays that have a USB port. Optionally, the AOC may also be powered from an AC to USB adapter (#22328). With HDMI, users can take advantage of the latest advances in HDMI technology including:<

Features & Benefits

Supports High Speed HDMI features

Small diameter, flexible cable

USB powered at the display end of the cable

Specifications

General Info

Product Line	C2G	Color	Black
Application Sector	Commercial, Residential	Warranty Type	3-Year
Type	Active Device, Cable		

Dimensions

Cable Length	33 ft
--------------	-------

Technical Information

Bend Radius	3 mm	Cable Type	Active Optical Cable (AOC), High Speed HDMI, Video
Jacket Rating	Standard / Non-Rated	Data Transfer Rate	10.2 Gbps
Adapter Rear	USB-A Male, HDMI Male	Adapter Front	HDMI Male
