

C2G

Discontinued - 250ft (76.2m) Dual RG6/U Quad Shield Coaxial Cable - In-Wall CMG-Rated

Part No. CG-43066

Our dual RG6/U quad shield cable is ideal for antenna, cable television and satellite installations. Make two cable runs at one time for dual LNB satellite or satellite and antenna installations. This cable has an 18 AWG copper clad steel center conductor surrounded by a foam polyethylene dielectric. A bonded aluminum foil and 60% aluminum braid over another foil and 40% aluminum braid provide 100% shield coverage. Use for CL1, CL2, CM, CMX and CMG installations. Swept tested to 3 GHz to ensure performance at applicable frequencies. To help you keep track of cable used, the cable jacket is sequentially marked every two feet.

Features & Benefits

In-wall, CMG-rated jacket

Quad shield, dual RG6/U construction

Swept tested to 3GHz
