

C2G

Discontinued - 3ft (0.9m) Premium Shielded HD15 SXGA M/M Monitor Cable with 90° Upward-Angled Male Connector Part No. CG-52001

Gain maximum flexibility in positioning your monitor with this angled connector cable. The right-angled connector allows installation in even the tightest locations; the cable breaks upward from this connector. This premium VGA cable is ideal for video presentation devices, video splitters, and KVM switches. Constructed from premium grade video cable, it uses a combination of coax and twisted pair to accommodate cable runs up to 100 feet away without a booster (in most cases), and without the typical distortion problems associated with extended length cabling runs

SXGA provides a screen resolution of 1280 x 1024 pixels. Not sure what resolution you need? See our
