C2G
Discontinued - 2-Port VGA and USB Micro KVM with Audio
Part No. CG-52043

Take control of two PCs and free your desktop from clutter with our 2-Port VGA and USB Micro KVM with Audio. This powerful, compact KVM solution provides everything you need to control two PCs from a single USB keyboard/mouse, monitor, and speaker set. Fully integrated, single-jacket, six foot cables attach to your PCs to eliminate tangles and provide a neat, clean appearance. The small footprint of the switch makes it ideal for desktop applications.

The 2-Port VGA and USB Micro KVM is small in size but provides big box functionality. It supports video resolutions up to 2048 x 1536 pixels while providing full keyboard and mouse emulation to prevent system lockups. The auto scan function monitors computer operation; built-in 3.5mm speaker jacks support audio for multimedia applications.

With no software required, installation is hassle-free; simply connect the cables and power up! Hot key functionality enables you to switch from PC to PC without ever taking your hands off your keyboard. The KVM's LEDs deliver easy status monitoring as they clearly indicate which system is selected.
