

Bring ultimate flexibility to RS-232 applications with the patented Serial270 DB9 extension cable. The 270° DB9 connectors on each end rotate side-to-side in almost a complete circle, allowing you to position the cable to fit your installation. The connectors feature detents, or click-stops, every 90° to ensure signal integrity is maintained.

The oversized thumbscrews are slotted for easy connection to your equipment.

Fully shielded to prevent unwanted EMI/RFI interference; all lines are wired straight-through. With Serial270, the days of not having the right connector orientation on your cables are over!

Please Note: Forcing the connector past the click-stops will break the connector and possibly damage the cable.

## Specifications

### General Info

Product Line	C2G	Features	RS232
Type	Cable		

### Dimensions

Cable Length	50 ft
--------------	-------

### Technical Information

Cable Type	Extension, Serial	Adapter Rear	DB9 Female
Adapter Front	DB9 Male
