Just plug-and-play for keyboards, mice, modems, printers, and other USB peripherals. This cable provides a transfer rate up to 480 Mbps depending upon the peripheral's USB version, and easily attaches to any USB device. Foil and braid shielding reduces EMI/RFI interference and twisted pair construction helps reduce crosstalk thus ensuring high speed, error-free data transfer.

Please Note: This cable is not intended to connect two computers together or to connect a USB hub between two computers. Doing so may cause irreparable damage to your computers. We offer a USB file share cable (#39977) to connect two computers.
