

This ceiling speaker is the perfect solution for K-12 classrooms, conference rooms, or other learning, sharing, and collaborating environments that require a sound reinforcement system for multimedia presentations, video clips, and movies. This ceiling mount configuration allows this speaker to be securely mounted within a drop ceiling or a wall. This speaker is built to a 70V industry standard and integrates seamlessly with distributed speaker systems, such as a public address (PA) system.

Ceiling speakers mount easily for a clean, unobtrusive look while dispersing sound at 120 degrees for full coverage. Designed for long life, rubber surrounds and poly cone construction provide a durable solution that will not degrade over time compared with paper/foam-constructed speaker components.

Note: This speaker is sold individually and not in pairs.

Specifications

General Info

Product Line	C2G	Color	White
UPC Number	757120399070	Country Of Origin	China
Warranty Type	Lifetime	Type	Speaker
