

The Q-Series Vertical Manager is simple and fast to assemble, and mounts effortlessly to the Legrand Standard EIA Rack System. Perfect for building networks, it will easily install into a single open rack system or a complete row of open racks. Cables dress cleanly to the front and can also be dressed to the rear using the wire cages, or the optional cable ring kit. The Legrand Vertical Cable Manager is a product designed for versatility, but built for value.

Convenience

Completely tool-less to assemble and installs in minutes. Assembly is tool-less and installation takes just minutes. The lightweight construction and modular manager components make this a one-person job. Cable retention clips allow network installers to separate copper and fiber within the same vertical manager.

Durability

Made from ABS plastics, it has rugged wire cages which double as cable tie locations and has flexible fingers for individual RU cable management.

Features & Benefits

- Single-sided
- Lightweight plastic assembly
- Cable management rear wire cage frame
- Snap fit tool-less assembly
- Rugged, flexible fingers for individual RU cable management
- Mounts to standard EIA 2 and 4-post racks

Specifications
