

RG58/U BNC ThinNet Cables

RG58 BNC cables are the ideal cables for your ThinNet ethernet network. They meet or exceed standards for shielding and feature a rugged design. These heavy-duty cables will stand the test of time in the toughest environments. BNC cables are the solution in environments where there is considerable interference, or where running new twisted pair wire is not feasible, BNC is the solution.

Order Information

- #03183 RG58 BNC ThinNet Cable 8ft
- #03186 RG58 BNC ThinNet Cable 15ft
- #03188 RG58 BNC ThinNet Cable 25ft
- #03189 RG58 BNC ThinNet Cable 50ft
- #03190 RG58 BNC ThinNet Cable 75ft

- #02044 RG58 50 Ohm BNC Terminator

Specifications

- Connector: BNC Male to BNC Male
- RG Type: 58/U
- Impedance: 50 Ohm
- Requires BNC T-Connector for proper connection at nic or hub
- Ideal for Thin Ethernet networks
- Lifetime Warranty

**Lifetime
Warranty**

Cable Connectors

Connector A

BNC Male

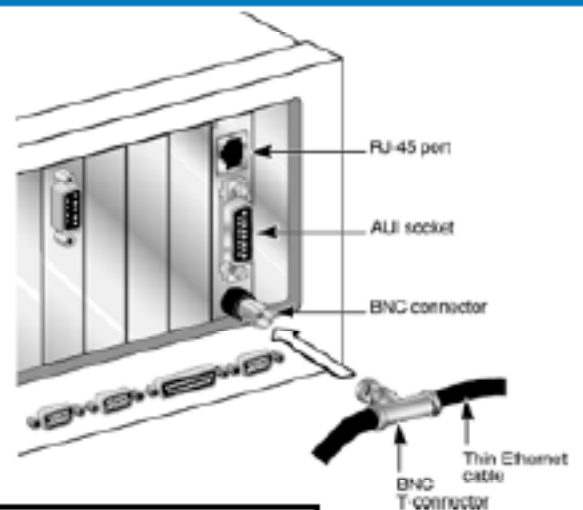

Connector B

BNC Male

Benefits

Quick and Easy to install
Available in 5 lengths up to 100ft
