

Web Cable Plus with Audio Cable

All-in-one, Simple, Most Affordable PC-to-TV Video Converter. Patented Single-cable Design.

What Can You Do with Web Cable Plus?

- Watch DVDs on the Big-screen TV. No need to buy an expensive stand-alone DVD player when you can use your existing DVD drive on your PC.
- Take PC Gaming to the Next Level! Play with friends and family on the big-screen TV. Experience more excitement and enjoyment playing your games on your home theater system.
- Couch Surf the Internet. Turn your Internet browsing into a family activity.
- Learn Better at Home. Research studies indicate that children learn up to 30% faster when teaching materials include multimedia content. Give your kids a head start with edutainment software.
