

TruLink® USB 2.0 Active Extension Cable

Ultimate USB extension solution for PC & MAC® users

The TruLink USB 2.0 Active Extension Cable is perfect when you need extra distance; this cable will extend the reach of your USB 2.0 cable or device 12m (40'). The USB active extension cable actively buffers the incoming and outgoing signals to ensure compliance with the USB 2.0 specification for electrical and timing minimums. Both low and high speed USB devices will function equally well with this cable. Great for extending the reach to your USB devices. Both PC and Mac® compatible.

Features:

- Perfect for home or office IT applications
- Extending the reach of your USB devices such as:
