

4-Port QXGA Monitor Splitter/Extender with 3.5mm Audio

Split your video and audio signal to four outputs up to 210 feet

The TruLink® 4-Port Monitor Splitter is the perfect choice for distributing audio and video to classrooms, exhibits, tradeshow, demonstrations and multimedia presentations. This monitor splitter broadcasts your computer's audio and video output to four destinations. Daisy-chain more than one splitter to expand the number of monitors and speakers you can reach. With the built-in video signal enhancement, you can place monitors up to 210 feet away while maintaining your video quality.

Use the 3.5mm audio outputs to drive either speakers or earphones. Suitable for XGA, SVGA, VGA, UXGA, QXGA, and MultiSync® resolution monitors. From use in test bench facilities, data centers and help desks to video broadcasting, our splitter/extender delivers both performance and value.

Applications:

- Perfect for home or office monitor splitter/extender applications, including:
 - Digital signage, conference rooms and classrooms
