RapidRun® HD15 + 3.5mm + XLR Balanced Audio Flying Leads

Use with a PC Runner for projectors, microphones and displays

RapidRun is designed to be the standard for in-wall audio/video installations. The RapidRun system empowers you to customize your installation to create your own ideal audio/video solution. Break-away Flying Leads and Wall Plates ensure flexible, efficient, high quality connections for all types of equipment.

Ideal for educational and institutional installations, this Flying Lead sends PC video, 3.5mm stereo audio and XLR balanced audio over one cable. It is commonly used on the display (projector) end of classroom setups, while the corresponding Wall Plate (#42341) is used at the teacher's station.

Features

- Color Code: Yellow (for use with PC Runners)
- Supports transmission of RGBHV signals (does not support data-bit transmission), 3.5mm stereo audio, and XLR balanced audio
- Fully molded connector provides excellent strain relief
